

Some recent IEM, YZU international graduates'

**Accomplishments and Responses**

<b>Graduation Year</b>	<b>Degree program</b>	<b>University attended</b>	<b>Name of company</b>	<b>Job position</b>	<b>Responses</b>
2013	Master of Science in Industrial Engineering and Management	Yuan Ze University	Kiribati Copra Mill Company Ltd (KCMCL)	Chief Executive Officer (CEO)	In brief, the TaiwanICDF scholarship program has offered great benefits in enhancing my knowledge and skills through their training/education program. It gave me the chance to continue my studies and through learning at one of their prestigious university, Yuan Ze University, I can now share what I learned and observed to develop my country.
2013	Master of Science in Industrial Engineering and Management	Yuan Ze University	Gambia International Airlines	Safety & Quality Manager	The Taiwan ICDF scholarship made my dream of pursuing a master's degree come true. With this scholarship I was able to fully concentrate on my studies without any need for additional funding. The degree obtained has led to higher income and it would no doubt increase the likelihood for promotion in the near future.
2013	Master of Science in Industrial Engineering and Management	Yuan Ze University	GAD PROVINCIAL DE PICHINCHA	Project Coordinator	
2013	Master of Science in Industrial Engineering and Management	Yuan Ze University	PVK, regional distributor of SWARCO Industries		More important than the academic knowledge I acquired in Taiwan was the cross cultural experience and the mind maturity reached during my studies abroad. The international environment experienced in Taiwan helped me to improve my interpersonal relations and my capacity to analyze and make better decisions under a different perspective.
2013	Master of Science in Industrial Engineering and Management	Yuan Ze University	Yuan Ze University	Continued PhD student	

2012	Master of Science in Industrial Engineering and Management	Yuan Ze University	General Electric	<b>Engineer</b>	I always appreciate to ICDF for giving me such opportunity to study in Yuan Ze University, Taiwan. My profession (Industrial Engineering and Management) is very useful and helpful for country like Mongolia which is underdevelopment. All what I learn from my university is very helpful for my future career and give my tiny help to my country for development. I always appreciate all the people who were supporting me, big big thanks. I believe ICDF is giving a lot of opportunities to the person who really wants to be educated but no money from developing countries. My experience in Taiwan open my eyes in right way. Thank you ICDF, you are the best.
2012	Master of Science in Industrial Engineering and Management	Yuan Ze University	Aroy	<b>General Manager - Owner</b>	I come from a third-world country and therefore studying in Taiwan first changed my mind: it produced in me the need of using time wisely, self learning and keep updated in the topics of our career and interest. Studying in Taiwan gave me the opportunity to become a Call Center Manager, with more than 75 people under my responsibility, giving me a boost of experience in managerial positions. Now I'm a entrepreneur, with a small start and looking forward to becoming an example for other people and companies.
2012	Master of Science in Industrial Engineering and Management	Yuan Ze University	KPMG (安侯 新加坡)	<b>Assistant Manager</b>	I am working in Singapore and they were convinced with my interest in Asia because of my studies in Taiwan. My bosses and co-workers are impressed for my trajectory, being a Latin American who studied in Taiwan and decided to stay developing career in Asia.
2012	Master of Science in Industrial Engineering and Management	Yuan Ze University	Yuan Ze University	<b>Continued PhD student</b>	
2011	Master of Science in Industrial Engineering and Management	Yuan Ze University	CABEI (Central American Bank of Economic Integration)	<b>Portfolio Management</b>	It's been a lifetime experience... I will love to go back to Taiwan, I feel so great full for the opportunity that Taiwan Government and ICDF gave to me... It has opened many doors to me in the professional and personal way, Thank you!!
2011	Master of Science in Industrial Engineering and Management	Yuan Ze University	Cafe Soluble S.A	<b>Logistics Chief</b>	After graduated from the Taiwan ICDF Program, I have had more opportunities in finding a job. Also I have become aware of other countries culture, which is fundamental in this globalized world

2011	Master of Science in Industrial Engineering and Management	Yuan Ze University	Syntepro, S.A. de C.V.	Corporate Services <b>Manager</b>	The TaiwanICDF scholarship helped me in different aspects of my life. First of all I had the chance to know how to study/work with people from different countries while I was in YZU, I learned the right way to write papers, how to be more disciplined, how to do a research and how to be a good leader. In the other hand, the fact that you travel to another country by yourself makes you more responsible of your actions, makes you a stronger person and your personality becomes better in many ways. I really appreciate the opportunity that TaiwanICDF scholarship has given me. Thank you a lot. Michelle歐蜜雪
2011	Master of Science in Industrial Engineering and Management	Yuan Ze University	Masterwork Aiotek Automodules (Nvida-Taiwan)	Processing and Algorithm Developer <b>Engineer</b>	Without the scholarship I wouldn't have gotten where I am right now, it has been quite a challenge and a fun ride. The kind of help (not only financially) TaiwanICDF offer is something you won't find in any other country nowadays. Thanks to TaiwanICDF I can say I made it; I have a good job and a brighter future in my opinion. I would love to share my experience with other students or newcomers if the opportunity arrives.
2010	Master of Science in Industrial Engineering and Management	Yuan Ze University	MDB Capital Group	Intellectual Property <b>Project Supervisor</b>	TaiwanICDF scholarship not only gave me the opportunity to find a better job in my country but also helped me to develop my professional career. Taiwan also gave me the cultural experience that helped me to understand different ways of thinking. In other words, Taiwan showed me the world from another angle. Thank you!
2009	Master of Science in Industrial Engineering and Management	Yuan Ze University	Yuan Ze University	Continued <b>PhD Student</b>
